EASTERN VANGUARD **COMING THIS WEEK**

Parker's Supporters and Opponents Will Be on the Convention Ground Early.

BOTH SIDES ARE HOPEFUL.

More Than Enough Votes to Make Nomination on the First Ballot.

REPUBLIC SPECIAL

New York, June 25.-Delegates to the National Democratic Convention, which meets in St. Louis a week from next. Wednesday, are preparing to leave.

The vanguard will arrive almost week in advance of the date set. Among these are Senator Arthur P. Gorman of Maryland and Senator James Smith, Jr. who are to meet at the Southern Hotel next Friday night,

Charles F. Murphy the Tammany leader, and John J. Delaney, corporation counsel, with Thomas F. Smith and other shining lights in the Wigwam, will leave New York early next week en route for St. Louis, but will make several stops, the purpose of which will be to try to corral some of the delegates who go un-

instructed. The object of these emissaries is to so cure promises from the chairmen of the various delegations who are not pro-Parker men to vote with the minority so long as there is any hope of upsetting the plans of the Parker managers. They will urge that Parker is not a national character. and that little enthusiasm can be aroused for him. No attempt will be made to besmirch the New York Judge, since efforts in this direction would be worse than use-

in this direction would be worse than use-less and might prove a boomerang.

But the Tammany leaders are once again infiating the McClellan boom, and are hoping against hope that the son of Little Mar will be the man upon whom the minority will settle after the first ballot is taken. They claim that McClel-lan could inspire the enthusiasm which the Democratic nominee should possess, and point to his record in Congress on trusts, the tariff, and the financial ques-tion as the grougest recommendation to the Democracy of the nation for their tion as the strongest recommendation to the Democracy of the nation for their

BRYAN LIKES MCCLELLAN. McClellan, though an avowed gold man. in favor with Bryan, and would have the support of that wing of the party. That an effort is being made to bring about the New York Mayor's nomination was admitted to-day by Al Downs, former secretary to Mayor Van Wyck.

"If Parker succeus in getting away with the nomination," said Mr. Downs, "or course, Tahmmany will turn in and support him with all the vigor it is capable of summoning. But we have not yet abandoned hope of George B. McClellan. He is a man upon whom all the factions could unite. He has the confidence of the business community and has given New York the hest administration the city has ever had. His record in Congress speaks for itself. His views on all the live issues are down in black and white and there is nothing in that record that he would have blotted out. With McClellan the nominee, we would surely carry the three doubtful States of New York, New Jersey and Connecticut.

"With the South solid for him, it would." the support of that wing of the party.

"With the South solid for him, it would be necessary for us to carry only one Western State, and we could bend all our energies in securing the electoral vote of Illinois or Indians."

Asked as to who would make a good vice presidential candidate, Mr. Downs answered promptly:

"Folk of Missouri, if he would take it, but I am afraid his decision to keep out of national politics for the present and confine his attentions to the State of Missouri is unanterance. But with Metaleman

confine his attentions to the State of Missouri is unanteraore. But, with Mrcleight and Folk, the Democrafic ticket would be invincible next fall."

It is still Parker against the field. His supporters are just as confident as ever that he will secure the nomination. William F. Sheeban is preparing a statement and table perporting to show that Parker will have two-thirds of the 1,015 delegates. Mr. Sheeban departed last night for his home, near that of Judge Parker, after lengthy conferences with David B. Hill and other leaders at the Hoffman House.

While these were in progress Senator Gorman was holding star-chamber sessions with Henry Watterson, Charles A. Towns and Senator Smith of New Jersey. Not a word was given out about what transpired at any of these meetings. The conferees were admitted, and dismissed by back doors to avoid interviewers.

ANTI-PARKER PLANS.

So far as can be learned, those opposed to Parker discussed the like thood of their to Parker discussed the likelihood of their baving more than one-third of the delegates. They claim they will be able to muster 381 votes, or enough to ba k Parker. This figure, however, is based on Wisconsin holding out for Wall, Massachusetts for Olney, Missouri for Cockrell and belaware for Gray.

The opposition to Parker hope that, instead of developing strength after the first ballot, a reaction will set in and that they will be able to force a compromise on a dark horse.

first ballot, a reaction an adark horse, they will be able to force a compromise on a dark horse.

There are, in fact, more "possibilities" to-day than at any time since St. Louis was selected as the convention city. An attempt cas been made to resurrect the Gorman boom; Gray is again brought out, although the Delawars Judge has, by his own declaration, taken himself out of the race; Massachusetts ins six that Olney can sweep the East if nominated, and there is no little talk about Francis as a compromise candidate, who would be satisfac-

no little talk about Francis as a compromise candidate, who would be satisfactory to all factions.

Farker's friends hope to secure the
twenty-six votes of Wisconsin and the
thirty-two of Massachusetts. His opponents are confident that they will be able
to hold these States in line, and also win
from Parker some of the delegations
whose instructions are so worded as to
give them wide discretion. But, sides
claim to have the Pennsylvania delegation, head t by Colonel Guffey and castling sixty-sight votes. The Parker managers say, is a most convincing manner,
that Penrsylvania will be found with
Parker when the proper times arrives.
If this statement be true, and it was
made by one of Parker's sponsors, it is
difficult to see how the nomination of the
Esophus jurist can be defeated
SECOND PLACE FOR WEST.

SECOND PLACE FOR WEST Parker has 270 instructed delegates, and there are 348 from States uninstructed but favorabel to him. Here alone are 618 without taking into consideration delewithout taking into consideration dele-gates who go untrammeled, and will be free to follow their own inclinations, If Parker should succeed in carrying off the prize, Williams of Illinois is men-tioned as a likely vice presidential nomi-nee. This nomination, it is said, will strengthen the chances of carrying Illi-nois.

It has been remarked that at the Repub-

nois.

It has been remarked that at the Republican Convention in Chicago, the Illinois delegation was even more apathelic than that of New York. This, it is said, was due to President Roosevelt's interference in the selection of a gubernatorial causificate. There is considerable bitterness rankling in the breasts of Illinois Republicans, and Democrats say it should be a comparatively easy matter to win the electoral vote of that State.

Vice presidential goestp, however, is not induged in very freely. Eastern Democrats say they have one big bridge to cross in the selection of a predential candidate, and don't care to talk vice presidential possibilities until the standard bearer has been chosen.

It was said to-day that John Sharp Williams of Mississippi will be temporary chairman at St. Lohis, and will make the keynote speech.

SILENCE CONTINUES.

SILENCE CONTINUES Since the Court of Appeals adjourned on June 17 some statement by Judge Parker utlining his position on the possible is sites of the campaign has been looked for, out none was forthcoming. His silence is seriously embarrassing his managers, William F Sheehan, who is the accredited William F. Sheehan, who is the accredited mouthinees of the jurist, says, however, that Judge Parker will be heard from in due time. He is against a statement, and is the one man who has advised Parker to refrain from making public his views. August Beimont, it is known, fayors a general statement by Parker; so does David B. Hill. But the Judge fears that such a statement might appear to be a bid for the nomination, and he will not raise a hearl in that direction. If the nomination comes to him he will accept it. But he will not pull a wire nor move a muscle to secure it.

he will not put a where is inclined he will to secure it.

"When Judge Parker is inclined he will be heard from," said Elilot Danforth today. "What he has to say will effectually slatt up those who have been harping on his attitude of silence. At the proper time he will give expression to his views on all nublic questions.

public questions.

"Judge Parker is as certain of nomina-tion as anything could be in advance. He will be nominated on the second ballot. The trend of recent affairs is all in Judge Parker's favor. It means clear sailing for him. There is no other candidate in sight who so nearly controls the situation.
